# Item: 6

Policy and Resources Committee: 16 February 2021.

**Capital Expenditure Monitoring.** 

Report by Head of Finance.

# 1. Purpose of Report

To advise of progress, as at 31 December 2020, of projects within the approved capital programmes.

## 2. Recommendations

The Committee is invited to note:

### 2.1.

The summary financial position, as at 31 December 2020, in respect of the approved General Fund and Non-General Fund capital programmes, as detailed in section 3.1 of this report, indicating the following:

- Actual expenditure incurred as at 31 December 2020 of £11,700,000.
- Annual budget of £26,704,000, which reflects slippage and current timescales for completion of individual projects.
- Probable outturn as at 31 March 2021 of £20,156,000.

The Committee is invited to scrutinise:

### 2.2.

The detailed analysis of capital expenditure, together with project updates in respect of the General Fund and the Non-General Fund capital programmes, attached as Appendix 1 to this report, in order to obtain assurance with regard to significant budget variances and on progress being made with delivery of the approved capital programmes.

# 3. Financial Summary

### 3.1.

The tables below provide a summary of the position as at 31 December 2020, across both General Fund and Non-General Fund capital programmes.

General Fund	Actual Spend £000	Annual Budget £000	Estimated Out-turn £000's	Variance £000
Service Committee				
Orkney Health and Care	(329.)	974.	474.	(500.)
Education, Leisure and Housing	900.	1,570.	1,796.	226.
Development and Infrastructure	1,005.	2,694.	2,364.	(330.)
Policy and Resources	1,457.	5,296.	3,182.	(2,114.)
Expenditure Totals	3,033.	10,534.	7,816.	(2,718.)

Non-General Fund	Actual Spend £000	Annual Budget £000	Estimated Out-turn £000's	Variance £000
Service Committee				
Education, Leisure and Housing	1,233.	5,992.	2,471.	(3,521.)
Development and Infrastructure	7,434.	10,178.	9,869.	(309.)
Expenditure Totals	8,667.	16,170.	12,340.	(3,830.)

Total Capital Programme	11,700.	26,704.	20,156.	(6,548.)
-------------------------	---------	---------	---------	----------

### 3.2.

Appendix 1 advises of progress on each project. The accompanying notes have been prepared jointly with Service project leads and indicate the current status of the projects and are intended to highlight whether there are any budget or timescale issues with the projects.

### 3.3.

Steps taken in recent years to improve delivery of the capital programme, including programme oversight, development of a project management approach and a review of the Capital Project Appraisal process which sits in front of the capital programme. Work to improve monitoring and reporting procedures also remains ongoing.

#### 3.3.1.

It is however recognised that much of these improvements will only benefit those new projects that are added to the capital programme going forward, rather than the existing approved 5-year capital programme that was approved under the previous programme management approach.

### 3.4.

It should be noted that delivery of the capital programme for 2020/21 has been impacted by the COVID-19 pandemic, with work on many projects halted due to the national lockdown for the first three months of the current financial year. Where possible contractors will endeavour to bring projects back in-line with target deadlines over the remainder of the financial year, but it should be recognised that further slippage is now being forecast as at the 31 March 2021.

### 3.5.

Other COVID-19 related issues include the need to re-negotiate the terms of the original grant awards with external grant funders on a number of key projects where, for example, deadlines have had to be extended and/or the scope of the approved works may need to be amended. There is also evidence that additional cost pressures and uncertainty over the delivery of goods and materials are now being passed on through the pricing of jobs by contractors such that a number of approved capital projects are now the subject of a formal review process to reassess the scope and affordability of the planned works. In most cases, these exceptional pressures serve to contribute to the level of recurring slippage on the Council's approved capital programme.

# 4. Corporate Governance

This report relates to the Council complying with scrutiny and its financial processes and procedures and therefore does not directly support and contribute to improved outcomes for communities as outlined in the Council Plan and the Local Outcomes Improvement Plan.

# 5. Financial Implications

The Council's Financial Regulations in respect of capital expenditure state inter-alia the following:

- Approval by the Council of the capital programme constitutes approval of the individual projects or provisions contained therein.
- Any requests to incur expenditure outwith the provisions included in the approved capital programme shall be reported to the Policy and Resources Committee for approval, prior to any commitment being made.
- The Chief Executive and Executive Directors cannot exercise virements within the capital programme, except in exceptional circumstances and only after consultation with the Head of Finance. The action taken and reasons for such virement must be reported to the next meeting of the Policy and Resources Committee.

- Where no contractual commitment exists or will be made in the current or previous financial years for an approved capital project, the relevant programme provision(s) may be redeployed by the Policy and Resources Committee.
- If the cost is likely to exceed the approved capital programme the shortfall must be reported to the next meeting of the appropriate Service Committee before the project is reconsidered by the Policy and Resources Committee, where additional budget can be allocated or the existing provision redeployed.

# 6. Legal Aspects

Financial monitoring and reporting help the Council meet its statutory obligation to secure best value.

## 7. Contact Officers

Gareth Waterson, Head of Finance, extension 2103, Email gareth.waterson@orkney.gov.uk.

Colin Kemp, Corporate Finance Senior Manager, extension 2106, Email colin.kemp@orkney.gov.uk.

			Financial `	Year 2020/21		Future '	Years		Total Project Summary		
		Spend	Approved	Estimated	Over/(Under)	Budget	Budget	Spend	Project	Estimated	Over/(Under)
Approved Capital Programme	Project Lead	to date	Budget	Spend	Spend	2021/22	2022/23	to Date	Budget	Out-turn	Spend
		£000's	£000's	£000's	£000's	£000's	£000's	£000's	£000's	£000's	£000's
Formal approvals have now been obtained to increa	se the total project budg	et from £3.6m	to £4.4m, at	no additional	cost to the Coun	icil, due to secu	uring more ex	ternal funding	than anticipa	ated in 2019.	Due to COVID-
19 related matters, the construction programme con	pletion date has formally	changed fron	n 1 March 20	21 to 10 Sept	ember 2021 and	I this has been	reflected in t	he reprofiling o	f the increas	ed £4.4m bud	lget. External
funders have been advised of the revised programm	e timescale which was o	completely out	with the Cour	ncil's control.	For the moment	t, the construct	ion site rema	ins open as pe	er the latest S	Scottish Gove	rnment COVID-
19 guidance but the project team is closely monitoring	ng this situation as there	is the risk that	the Scottish	Government	may decide to cl	ose construction	on sites agair	and the furthe	er related imp	pacts this will	cause.
St Magnus Cathedral Doors	Peter Diamond	0	160	32	(128)	96	0	0	256	256	0
Revised Stage 2 Capital Project Appraisal approved	by Council at Special G	eneral Meeting	g held in Janu	uary 2021, rev	ising the project	budget to £25	6k; Tenders I	nave been rece	eived for the	external work	s, however due
to delays in obtaining the listed building consent, as	issues raised by externa	l stakeholders	were not as	expected from	n the initial feedb	back, and thus	delayed the	start of the wor	ks on site, a	long with the	COVID-19
lockdown. Discussions are ongoing to resolve the is	sues with the listed build	ding consent, v	with the full su	upport and en	gagement of the	Development	Management	t team. A revis	sed application	on has been s	ubmitted and
will be determined in due course. It is expected that	this will delay the externa	al works until a	after the vesti	bule works ar	e complete. Ves	tibule contact a	acceptance to	be issued foll	owing Counc	cil approval, w	rith a start on
site date expected in March 2021. Vestibule project	due to be complete early	in June 2021

Delivery of the corporate improvement programme for 2020/21 has been delayed due to internal staff resourcing constraints, delayed decisions on whether or not to proceed with works as originally planned and delays with contractors not being on-site due to the 4 month COVID-19 lockdown. It is hoped that it will be possible to deliver half the planned works by the end of the financial year with a projected underspend of £1,300,000 largely due to delays with works relating to improvements to the Early Learning and Childcare nursery estate as a result of changes to project scope to comply with inspectorate requirements. In general the resources needed to delivery all major projects on the 2018-2023 capital programme has been reviewed at the capital programme board and a commitment made to strengthen the delivery teams to ensure the approved projects within the 2018 - 2023 programme are delivered. This is also in the context of recent capital slippage and project/programme management audits (Internal) and recommendations from the planning review (i.e. planning agent requirement). Equally given the state of the construction and civil engineering market (capacity and COVID-19 supply chain constraints) the timing of release of work to seek the best price is also an ongoing issue to factor in.

SRF Property Maintenance	Darren Richardson	0	119	3	(116)	119	119	Д	nnual Progra	amme
