Council Tax Charges plus Scottish Water

– water and waste water charges 2022/23

The Council Tax for the financial year 2022/23 has been set in accordance with Section 93 of the Local Government Act 1992 at £1,244.73 for a property in Valuation Band D, which is a 3% increase on the 2021/22 charge. However, the Scottish Government's £150 cost of living payment means that many households will actually see their bills go down.

Scottish Water's water and waste water charges have increased by 4.2% for 2022/23. Orkney Islands Council is not responsible for setting the water and waste water charges but must bill and collect these charges on behalf of Scottish Water. The amount payable will be reduced if a property is not connected to these services.

Each property is given a Council Tax Valuation Band, between A and H, based on its open market value as at 1 April 1991. The Council Tax charge for each Valuation Band is based on a proportion of the Band D amount.

The following table shows how much will be payable for a household with two or more persons aged 18 years or over.
